Precipitation probability					
40%	60%	80%	90%	90%	60%

Forecast for Monday 13 Dec 2021

Weather: Cloudy with outbreaks of rain and drizzle turning increasingly heavy and persistent during the afternoon and evening. Rain perhaps turning wintry over the highest peaks but in general feeling mild with generally light winds. There is some uncertainty in the timing and northwards extent of the rain.

Chance of cloud free mountain/hill tops above 800m: 20%, though perhaps 60% in the far north of the range to start.

Visibility: Widespread low cloud above around 300-400m. Below the cloud, rather hazy and reducing to a few km at times in rain or drizzle.
